OUR PRODUCTS

Tree House Dome units include a middle floor and mattress. These series are constructed from galvanized steel dipped in a white plastic coating. The dome includes a transparent PVC top and a clear PVC door. Available in a variety of colors.

INSTALLATION

Tree House domes are usually installed around 10 feet off the ground by local contractors. Self-installation is also available for handy clients. Available for year-round usage.

SIZING

Available in three sizes: 10, 13, and 16 feet in diameter.

OPTIONAL ACCESSORIES

- Skylights
- Solar fan

**GLAMPING REACHED
NEW HEIGHTS.**

Our Tree House Dome technology offers a new way to live outdoors. Enjoy a serene sunset or an afternoon nap in your treehouse dome. Tree House Domes are equip with all you need to savor quiet time in nature. Perfect for children and adults of all ages.
