

WE DID IT! FEATURES

The Domespaces® CLD1040 is created with an elegant appearance that blends seamlessly with nature to provide the impression of living in the woods. The Domespaces® CLD1040's architecturally engineered design is both practical and aesthetic, utilizing materials in an effective manner to offer the ideal wide space for a luxurious glamping experience wherever one may envision.

Galvanized painted steel pipe with anti-rust coating for the framework
Cover: UV protection (UV50+), flame retardant, water resistant, and PVDF material

Foundation: a sturdy basis reinforced with steel

Windows: The front and side windows of the dome are made of full-tempered glass.

Tempered glass doors with an aluminum alloy frame
